

# Pick-Up and Drop-Off at Xavier Center

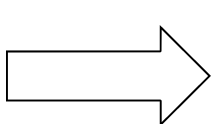

When dropping off or picking up students, drivers should enter the two-way entrance to Xavier Center, and make a left hand turn into the small parking lot area to swing around in front of the building. Cars should form a line and not cross the two-way entrance for the safe exit of cars and busses. Do not enter the drive in front of school until car riders are brought outside.

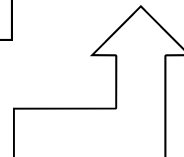

When in line to drop-off or pick-up students, please pull up in front of Xavier Center, pick up your child, and be on your way. If your child is in a car seat or needs assistance in buckling a seat belt, you may *quickly* get out of our car and secure your child.

There is NO PARKING in the bus zone in front of the Main Office and classroom wings. If you wish to come into the school office or to visit with other parents who are waiting for their children, please park your car in our convenient lot and walk over Xavier Center to meet your students.

One Way  
Entrance  
from Table  
Rock Road

Buses Only

Not to Scale  
(obviously)
